As far as I have been able to make out from the Resolution referred to by the Hon'ble Member there was a strong opinion against the conversion of the Patients' wards into residential Quarters for Hospital Assistants

However that may be, it

[illegible] representation the present case that the Board should grant for the newly established dispensary for which no [illegible] building has been provided and no accommodation for such work at present is available - an additional building at a small monthly cost from a donation intended for the purpose - The Board suggestion may be [illegible] Drafts-aboard -
